

Greetings, Beloveds, It is I, Gabriel. I come from the Angelic Realm with many Archangels and Ascended Masters in attendance, sharing our Love and our Light with you.

So, if you will take a deep breath now and begin to relax. Let go of all the thoughts and events of the day. And be very present in the moment.....

It is in this 5th dimensional moment that you recognize yourself in a much vaster capacity, to see the Divine Image within yourself.

Take another deep breath, and let us consciously, together as a Collective Consciousness, activate the Merkaba vehicle at 100% Light.....

What Radiance you are transmitting as individuals and a massive luminous Light as a Collective Consciousness!

Notice this Radiance within yourself and within the Collective container in which you all have gathered -- that Collective Consciousness of the Divine Image emanating in brilliant, brilliant Light through a Collective Merkaba field.....

This is who you are, Beloveds!

You are the Image of the Divine.

You are a multi-dimensional expression of the Divine.

You have created an energetic state of Being within your body and within your consciousness. You are taking advantage of all the energetics that have been given to you throughout this last year of your time and diligently used them effectively.

It is important that you recognize this, and we have gathered with you to help you see that.

As you navigate daily in your Merkaba vehicle, expressing yourself as that multi-dimensional Divine Essence, you alter the Earth and you change what is possible for all humanity.

Sit with me for a moment longer in this beautiful Light, in this beautiful Imaging that we have all created, gathering together in a Collective Consciousness to express that fully and completely.....

[Pause]

Take a deep breath and begin to focus your attention back to this meeting.
