

Good Evening, Everybody. Welcome back. We hope you had a great month.  
A special announcement: Our next session will be held one week later than usual on August 9. Please make note of this change.

This will be our tenth session for this Seating the Divine Image on Earth and we look forward to sharing some new information with all of us. The Collective Consciousness will be our teachers this evening, with Master Kuthumi taking the lead.

Our format for this evening will be

1. Centering Meditation
2. Tonight's topics and information
3. Channeling with Master Kuthumi
4. Q&A with Master Kuthumi

**So, let's get started with a Centering Meditation.....**

Thank you, Archangel Gabriel!

### **John's Review of Information:**

Now let's do a little review of last month's discussion. We started with a reminder of how we start all processes with spinning our Merkaba to 100%. Our first mission was to work with the 1<sup>st</sup> time lock and its Light templates. We then discussed how working with these new energies can cause some old anomalies to pop up and then how to handle them. We reminded everyone to call up that trusty and non-judgmental Inner Observer as one of the key tools. When you talk about the anomalies that the Inner Observer discovers, remember the importance of using the 4<sup>th</sup>/5<sup>th</sup>/6<sup>th</sup> Rays of Creation to clear them and create replacement patterns.

We want to remind you that the foundations of the 5<sup>th</sup> dimensional template are the refined frequencies that hold the 5<sup>th</sup> dimension together – which is Unity Consciousness and Love. This template is the foundation from which every action of creative energy is manifested in form.

Another basic of this 5<sup>th</sup> dimensional template is time. Time is being altered from linear (past, present, and future) to present-time only. Present time is fluid and has many creative opportunities. Having this refined 5<sup>th</sup> dimensional template in your consciousness and in your physical body gives you the present time factor and also a different emotional range. In the 5<sup>th</sup> dimensional state of Being, you are calm and certain about who you are. You have confidence that you have the skills to create what is needed. No longer do you process all of the anomalies through the lower emotions.

When you process these anomalies in the Now, there is no resistance in the body. When there is rigidity in the body, it does not allow healing to take place. For years, you have paid attention to your expanded consciousness. Now it is time to use that to assist the body and upgrade it to hold the more refined Light frequencies that you are establishing in your physical. It is now time to alter your consciousness as well as your body to a full 5<sup>th</sup> dimensional expression.

In our last Session, we also talked about the functioning of the 6<sup>th</sup> dimensional template. This is where you access refined concepts and energetics and compress them to make them more usable in the 5<sup>th</sup> dimensional physical experience. This is not new to you, because you have learned how to compress Light by using the 2<sup>nd</sup> Triad. You have become proficient at this process, as you have used it many times.

The 6<sup>th</sup> dimensional template also has a Magnetic component that comes from Source. It allows you to start using the 10<sup>th</sup> Ray of Creation more effectively. It attracts Light to Light so you can attract the Light of Source to the Light that you hold. The Light that you hold is now enhanced and magnified in the Presence of the 10<sup>th</sup> Ray Magnetism of Source.

In addition, these Magnetisms provide another function of stability which is so important in the 5<sup>th</sup> dimension. This stability is not like the stability of the 3<sup>rd</sup> dimension, which is very rigid. In the 5<sup>th</sup> dimensional template, the stability is present along with a fluidity which then allows unlimited potential to create effectively and precisely. Creative Light is never stagnant but is ever moving. That is why it is important that the 5<sup>th</sup> dimensional template is not only functioning stably but fluidly.

### **John's Example Using the Triangle with the 7<sup>th</sup> Dimensional Template of Creation:**

You all know how I love clear examples, so that they can be easily visualized. Well, I have taken a personal subject to help explain this process. I know you all don't have this exact issue, but I felt you could change it up easily to relate to you personally. Here goes!

Take a pen and paper and draw an equilateral triangle to hold your intention. This is a visual representation as well as an energetic geometry that holds yours intention.

In the center of the triangle, place your intention – no more than two or three words. In my triangle I place my intention to lose ten pounds. At the base, I place "balanced diet". Next, on one supporting side, I place the words "low carbs". On the other supporting side, I place the words "eliminate sugar".

Now, I apply the 7<sup>th</sup> dimensional creative process as follows:

(1) Access the White Star Tetrahedron in your personal Merkaba and fill your intention with the 5<sup>th</sup> Element of Love and Unity Consciousness, which are found in the Sacred Heart Consciousness of this White Star Tetrahedron.

(2) From this level of consciousness, access the 7<sup>th</sup> dimensional template of Light that was retrieved at the Crystal Conference and also the new Magnetic template that was seated in the Earth by the Kryon Collective Consciousness. This Magnetic template draws Light to Light.

(3) Draw these 7<sup>th</sup> dimensional templates of Undifferentiated Source Light and Undifferentiated Source Magnetism into the 6<sup>th</sup> dimensional interface, where it is compressed so it becomes usable in the 5<sup>th</sup> dimension.

Note: You now have a template of pure Source Light Energy and also pure Undifferentiated Source Magnetism that are contained in the 10<sup>th</sup> Ray of Creation, available through the 7<sup>th</sup> dimensional gateway.

(4) Draw this compressed form of the Magnetics of source that is newly available on Earth and also the 7<sup>th</sup> dimensional Light template into the 6<sup>th</sup> dimension and then into your precise intention and geometry of the triangle. This creates a physical environment that allows these vast Source energies to be used in your creation stably and fluidly. These energetic templates draw to you what you are requesting, because you are Light and draw Light to Light through your intention.

(5) Then organize and make these possibilities precise and coherent in the 5<sup>th</sup> dimension by using the 4<sup>th</sup>/5<sup>th</sup>/6<sup>th</sup> Ray of Creation.

(6) Then apply what you have created through the electro-magnetic field of the 4<sup>th</sup> Ray, through the electro-magnetism of your body and of the Earth, for manifestation in your physical world.

(7) You are now finished.....

But, don't forget to check in with your creation often!!!
