

QUICK ACTIVATION OF THE ARC OF THE COVENANT AND ZE'ON PARTICLES

Continue consciously breathing the Undifferentiated Light and Love from Source,
through the 11th chakra and from your own Pineal gland,
into the medulla oblongata at the base of the brain.

The medulla oblongata is the Ascension chamber, and it is necessary for Ascension.
It sparks the activation of the Arc of the Covenant as you breathe Light into the medulla.

Be aware of the electrical arcing from this Arc of the Covenant
now doming around your head.

Notice that YOU are creating Ze particles of Light from this electrical arcing.
Ze particles are a stepped-down version of the Undifferentiated Light.
They are usable in the physicality – in the physical and mental-emotional bodies.

And notice how your attention on the Arc of the Covenant and the Ze particles of Light
allows this Arc of the Covenant to expand beyond the head
and to now encompass your entire Merkaba field whirling around you.

Know that your Christed OverSoul is supplying On particles to you.
On particles are particles of Divine Thought at the level of the Christed OverSoul.
Now combine the Ze particles of Light with the On particles of Thought you have received
and feel how YOU create Ze'On particles of Thought,
which is Divine Thought now usable in the body,
so that you, in the body, can now think at the level of the Christed OverSoul.

Let's spend a few minutes consciously breathing Light into the medulla
with the intention of further activating the Arc of the Covenant,
the Ze particles of Light,
and the Ze'On particles of Christed Thought.

What are you noticing, feeling, seeing, sensing, knowing as you do this?

Is it appropriate to add any Color Codes into this Arc of the Covenant?
