

JOHN: Hello and welcome back to our 13<sup>th</sup> session of the Seating of the Divine. We hope you had a wonderful month, and we look forward to sharing some additional information with you tonight.

Our format will be to start with a centering meditation, then some additional information about tonight's subject, a channeling, a Q&A, and then a closing meditation.

Now Joan has some announcements about the website and also some further information on the interwoven aspects of our sessions.

JOAN: First, I want to encourage anyone who has not re-registered for Seating of the Divine to please do so. Otherwise you may not be able to get the current recordings and transcripts for each of our sessions.

I also want to let everyone know that registration is now open for next year's 2017 subscription to Seating of the Divine. This will be entitled Seating of the Divine, Level 2. We will send you a link in the next few days so that you can register for 2017.

We will be starting a new series in 2017 also, called Seating of the Divine, Level 1. This will cover the material that you covered in 2016. If you know of anyone who missed out on our present sessions, please let them know that registration is now open for Level 1. Keep in mind that these sessions are for mastery level participants and are not intended for the novice practitioner.

When we spoke with Master Kuthumi, he informed us that it was important for everyone to know that there are two very specific things that are going on in our current sessions simultaneously:

(1) We are creating mastery in the 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Rays of Creation by using the four Light Templates that we retrieved from the time locks. We are being taught to recognize what hinders us from creating in 5<sup>th</sup> Dimension and then how to create more precisely in a multiple dimensional level. We are being guided by the Archangels and Masters to expand our ability to create Unity within our physicality at all levels. We are being shown the importance of seeing ourselves as Love. The significance of being Love elevates your consciousness into a state of Being, rather than a state of feeling or doing.

(2) Another part of what is being presented in these sessions is the energetic influences that bring us into a state of Unity. This cannot be taught totally through words and examples. You must experience Unity. The energetics that are transmitted in these sessions continue to influence you long after the session has ended.

An example of this is our last session, when Metatron talked about the Flower of Life and the different configurations of specific energetics that are within the Flower of Life. It was not desired that you do anything with the Flower of Life but only become conscious of the energetics that are within it. This alone influences you.

JOHN: So, let's all take a deep breath and help Joan bring forth Archangel Gabriel to offer the centering meditation.
