

Greetings, Beloveds, It is I, Metatron.

I AM the Collective Consciousness of the All That Is.

I AM Light, unified in one expression of the Divine Image.

What I have just said to you, Beloveds, is who you are. You have embarked on this series of teachings, so that you could see yourself, fully and completely, as the Divine Image. For you are THAT.

Much has transpired over these last several months of your time. And you have learned much about yourself. And you have begun to know yourself in that Unity Consciousness. In the last few sessions, we have been encouraging you to now see yourself as Love. For true Unity cannot be present without the Presence of Love and the recognition of not only that you are a unified expression of the Divine but that you are Love.

We have also been discussing with you at some length the 4th, 5th, and 6th Ray of Creation, to expand your knowledge of these Rays, to expand your ability to create more coherently. And this brings us to another part of that, which is coherency within the mental-emotional body. We have been working with you for some years now in this unified expression of your Divinity, as you operate in the physical realm, which requires of you to have a mental-emotional body that is functioning at some level of coherency. Without that, you are doomed to stay in separation and fear.

And you have come a great way, along a transformative process where you have been uniting the mental body and the emotional body into one unified expression of your Divinity. I cannot stress to you the importance of this coherency within this body, because it was so fragmented at the fall of consciousness into 3rd dimension. And because of the way in which that body was used, time and time and time again over thousands of years, generation after generation throughout your lineage, throughout many lineages, it created a stable expression of you in 3rd dimension that is very difficult to remove and create a unified expression within that mental-emotional body. So, you will hear us say again and again, throughout these teachings, we will talk about the coherency within the mental-emotional body.

[5:24] Here again, this is arrived at through the experience of the unified expression of your thoughts and your emotions. And the only way that you will truly know it is to experience it, to notice it. So when you are using these various geometric progressions to create with the 4th, 5th, and 6th Ray, and the 8th Ray of Creation, it is important to recognize the feeling when you have successes, to recognize the thoughts of confidence, to recognize the exhilaration that you feel in the emotions.

And here again, we talk about replicating -- replicating that 5th dimensional template very precisely in your creation..... it's replicating the thoughts and the emotion in a successful manifestation, and replicating that same coherent unified state time and time again.

So, when you are creating, Beloveds, with the 4th, 5th, and 6th Ray, using that 5th Dimensional Template and the 6th and the 7th Dimensional Template, there is only one that has been retrieved. There are many more of 5th, 6th, and 7th Dimensional Templates that are yet to be retrieved, which will contribute further to your ability to create very precisely and manifest exactly what was needed in the moment. But most importantly is that replication within the thoughts and the emotions in that perfected state coherently operating to manifest an outcome. And you can only know that when you experience it and when you replicate that time and time again. So, these are important things that I want to draw your attention to this evening.

In that 5th Dimensional Template of Love and Unity, this was the first Template that was retrieved out of those time locks, and it was significant, because without it, you would still be struggling in that separation and fear template of 3rd dimension. So you have been able, through that Unity you have been working on for several years now, unifying parts of the body, parts of the brain, unifying the mental-emotional body. This Unity piece is extensive, and it is a very, very important piece.

So, it will come again and again in these teachings, and that will be expanded upon when another level of that is retrieved in this upcoming conference in 2017, because it is imperative that all of that 5th Dimensional Template be made available, as well as the 6th and parts of the 7th. You still do not have full awareness, because you only have partial pieces of that 5th, 6th, 7th Dimensional Template. But you have enough that you can create stability within the fluidity of your creations, using the 4th, 5th, and 6th Ray.

[10:23] And when we begin to explore more that 8th Ray, that Template that was retrieved was a very significant Template, because it allowed that Unity to be present. It allowed the Love aspect to be utilized, not fully understood yet how you can be it and not act upon it. It isn't that you don't act, but you must BE before you can create fully and completely, as the Divine Image expression of a Creator.

Now the second thing that I would like to discuss with you this evening is about this Flower of Life. And this may help you in this discussion to know yourself as being Love. In the Flower of Life, there is a full expression of you as a Divine Essence of Image, of the Image of Source. But there is also you as the microcosm of the macrocosm. It is spheres within spheres. And within those spheres, there are various configurations.

When you were conceived in your mother's womb, the egg was fertilized by the sperm. And as they united in one expression, it became two cells, just like the Vesica Pisces that is within the Flower of Life. That is the first emanation of the cell division, of the human form. And from there, the body grows. And the cells grow exponentially, one after another. And the Fruit of Life within that formation of the human body, in that process, is also part of that process.

So, the entire Flower of Life is a very significant energetic emanation of human form. So there are many, many significant principles that are held within the energetics of that Flower of Life. And what you see in pictures are flat images. They are not the full spherical Image. Within the Flower of Life, there is also the emanation of the DNA structure of the body, as it grows in the mother's womb. So every part of that Flower of Life is a significant piece as a human body: this form within the womb of the mother, and very specifically cell by cell is built. And it is within the diagram and the energetics of the Flower of Life that emanates the human form.

In addition to that, there is a piece that I have discussed with you in the last session, about that masculine-feminine identity. The ego of the human psyche, the fallen ego, likes to have an identity – either a masculine body or a feminine body. But in a state of consciousness of Unity, being the microcosm of the macrocosm, being the Love that you are, being Unity, the masculine-feminine energetics work as a unit. And they are expressed in that working in Metatron's Cube – it has straight lines; it has spheres; it has all the Platonic solids. It has all of the Elements of Creation.

[15:44] So you begin to see and know yourself as that unified expression of the Divine Image – at a physical level, at a spiritual level, at a consciousness level. So the Flower of Life is a very, very significant energetic Imaging that applies to you at a physical level as well as at a spiritual and a nonphysical level.

So, in the coming days, as you work with the 5th, the 4th, 5th, and 6th Ray, and you use the various geometries, most importantly that tetrahedron that you've been working with the last few sessions, and work with that 5th Dimension, where you see your anomalies. But you don't focus on them; you focus on the replacements. And you focus on the thought and the feeling of your ability to manifest exactly what's needed in the moment. And you replicate that certainty, that confidence, that knowing of Self as a Creator. As you focus on that emotion that brought that manifestation into reality.

So there are a lot of things at play here, when you are creating. But it is in the replication of a coherent mental-emotional body as well as working with the Rays, the 4th, 5th, and 6th Ray, and working these four Templates of 5th, 6th, and 7th Dimension, and the Magnetic piece.

The Magnetic piece is very significant, because it is instrumental in bringing into your awareness a consciousness of yourself as Love -- Love as an Element, Love that can be used as an Element of Creation. When you are That and you are confident that you are That, you can be nothing else but That, because you were created in that Image. Your cellular structure of your physical body was constructed from the blueprint of the Flower of Life. Your consciousness, your Spirit, your pure Spirit is Source energy.

So the Magnetic piece is very important, because you begin to draw to you not only the Element of Love but the understanding of yourself as being that Element. It adheres to your body; it adheres to your consciousness. Your Spirit already knows it. Your Soul in this body is in the midst of experiencing it. But it couldn't be experienced until you had completely dismantled that 3rd dimensional template, which you have done, very successfully.

Now, occasionally, those memories of failure or fear might surface, but they're only temporary, because you have the tools to eliminate them. And you use them. So have confidence that you have all that is necessary now to be the Creator that you are, to be that Source Image in a physical body. [20:48]
