

Greetings, Beloveds, It is I, Gabriel.

We are gathered together in this magnificent Light that we all share in the Collective Consciousness of this Gathering. And I'd like to invite you to be consciously in your Merkaba field. See it functioning at 100% Light.....

As you access this 100% field of Light in your Merkaba vehicle, you become more and more aware of yourself as the individual expression of that Light. It is no longer a stretch for you to visualize yourself as that individual expression of Light. It's imprinted in the very fabric of your Being. But now, it's also becoming integrated within the consciousness of your physicality.

This is due to the interface that has taken place within this Merkaba vehicle, especially when you navigate in this energetic vehicle and enter the Earth's Merkaba field. You are not only providing a service to Earth, to remember her consciousness, but you are leading by example. You are that consciousness as you are using your individual Merkaba vehicle. And when you enter the Earth's Merkaba field, you demonstrate this very succinctly. And it stimulates the Merkaba field of the Mother Earth. Even though it's a vast Merkaba field, a planetary Merkaba field, it still has the same levels, only at a much broader perspective of a planet. So, the imprint is very easily made.

Your body, itself, comes from the Earth. So, it stands to reason, as that consciousness of the body is altered in the Merkaba vehicle, that it's very easily transmitted into the Earth's planetary Merkaba field. These are important things for you to remember, especially at the close of this series of teachings, because it's a very valuable state of being that you cultivated. It is quite an accomplishment for you in a human form to be able to maintain such a consciousness, especially when the vaster part of the human collective is not capable of this. But you are the way-showers; you will show the way.

So, place your attention in your Merkaba vehicle and the beautiful Light that you personally emanate within it. And therefore, the Merkaba vehicle, itself, emanates that beautiful, 100% field of Light everywhere you move, everywhere you are. You make a difference in humanity and in the Earth...

See the beauty that you emanate. See the beauty of who you are and the growth in consciousness that you have developed in just twelve short months of your time. It is your ability to see the beauty of your Light and your SoulSpirit shining in that Light, the Love that you are and the value that you see in yourself in this incarnation. All of this is a grand shift in your conscious awareness that you cultivated this year.

Take a deep breath..... and in that shining essence of your Divinity, become very present in this Gathering.
