

QUICK SUMMARY OF THE CREATION PROCESS:

1. Be in 5D Sacred Heart, Love and Unity consciousness
2. Access & FEEL yourself as a flow of pure Divine Creativity: the 7D Template that you are
3. Create a precise geometric intention using the 6th and 5th Rays of Creation
4. Infuse this geometric intention with 5 of the higher energetics:
 - Love and Unity from your White Star Tetrahedron
 - 7D Template of Light as compressed in the 6th Dimension
 - Source Magnetism from the 10th Ray as compressed in the 6th Dimension
 - Color Codes
 - Sound Codes through the 9th Ray of Creation
5. Bring the creation into Earth manifestation through the 4th Ray of Creation and your own behaviors, thoughts, emotions, and conscious awareness
6. If desired, empower this creation even more through the Sacred geometries of the Flower of Life and Metatron's Cube
7. Check on your creation daily or weekly from a 5D and 7D state of consciousness:
Adjust the geometric intention as appropriate
using 6th & 5th Rays of Creation
then bring your creation into 4th Ray of Creation for manifestation
Re-infuse your creation with the 5 higher energetics
and, if desired, with the power of the Flower of Life/Metatron's Cube

DETAILS OF THE CREATION PROCESS:

Step 1: Be in a 5th Dimensional or higher state of consciousness

maintaining your thoughts and emotions at a very refined level in a unified state

Step 2: Access/FEEL/BE the Light and Magnetic Templates retrieved in Arkansas

and which are now part of your physical body and your consciousness

Become aware of the one Template from the 7th dimension which you hold –
THAT YOU ARE PURE DIVINE CREATIVITY.

FEEL these energetics as an energy flowing through you with much movement

With your intention draw those energetics through the 6th dimensional Template you hold
which steps them down (compresses them) & infuses them with the Source Magnetism
of like attracting like, which draws to you what you are and what you desire

FEEL the one Template of 5th dimension you now hold – that of Love and Unity

Step 3: Using the 6th, 5th, and 4th Rays of Creation to bring your creation into your 5D daily life, create a very precise geometric intention --

Bring new ideas in from the 6th Ray and organize them in the 5th Ray.
Then once the intention is created and energized as below,
call on the 4th Ray to manifest the creation in the physical Earth plane.

If you need to eliminate anomalies or blocks or old patterning,

You can create a triangle or a stream of connected triangles
each leg of which holds an energetic that has been supporting
what you are now choosing to dissolve and eliminate
Then wrap each leg one at a time in a sphere of Violet Flame Transmutational energy
and send it back to Source

To create your new creation or replacement pattern,

You can create a triangle or a stream of connected triangles
each leg of which carries a supporting energetic of the creation
Or you can put 4 triangles put together into a tetrahedron:
Each triangle of the tetrahedron can have its own 3 supporting energetics,
or the triangles can be created in such a way that when the 4 triangles are
put together to form the tetrahedron, the legs that touch each other share
the same energetic – this may a more tightly focused and precise creation.
It may be useful to have one of the 4 triangles carry tools such as Color Codes,
higher Dimensions, Sound Codes.
You can draw out the 6 petal Seed of Life and apply qualities to each of the petals.
And/or you could draw out the 13 spheres of the Fruit of Life
and then program each sphere with a quality or a practicality.

Step 4: Infuse your geometric creation with the higher energetics:

Again access/FEEL the flow of the 7th dimensional template of Light
then draw it into the 6th Dimension, where it is stepped-down and compressed
so it is usable in your 5D daily life on Earth
and is infused with the Source Magnetism of like attracting like

Draw the precise Intention you just created into the 6th Dimension
and infuse this geometric Intention/Creation with five of the higher energetics:

- (a) Infuse it with the 5th Element of Love and Unity Christed Matrix Consciousness
from your White Star Tetrahedron,
- (b) Infuse it with the 7th Dimensional Light template as compressed state in 6D
- (c) Infuse it with the compressed Source Magnetism as compressed state in 6D
- (d) Infuse it with any appropriate Color Codes
such as Magenta, Green, Gold, Yellow, Blue, Red, Indigo, Purple, and White
- (e) And infuse it with the appropriate Sound Codes through the 9th Ray of Creation

Step 5: Bring your creation into the 4th Ray

and actually apply what you have created for manifestation in our physical world
through the electromagnetic field of the 4th Ray,
through the electro-magnetics of your body,
and the electro-magnetics of the Earth

And here is a crucial question to answer: What would be your first step to do in order to bring this 5D Belief System into your daily life?

Step 6: You may also use the Power/Love/Unity of the Flower of Life & Metatron's Cube

that we live within – that is within us and around us – to further empower this creation. See last page for possibilities as to how to do this.

Step 7: BE SURE TO CHECK IN ON YOUR YOUR CREATION DAILY OR EVERY FEW DAYS:

Become aware of the one Template from the 7th dimension which you hold –
THAT YOU ARE PURE DIVINE CREATIVITY.

FEEL these energetics as an energy flowing through you with much movement.

With your intention draw those energetics through the 6th dimensional Template you hold which steps them down (compresses them) & infuses them with the Source Magnetism of like attracting like, which draws to you what you are and what you desire
FEEL the one Template of 5th dimension you now hold – that of Love and Unity

Quickly re-infuse your geometric creation with

- Love and Unity from your White Star Tetrahedron
- 7D Template of Light as compressed in the 6th Dimension
- Source Magnetism from the 10th Ray as compressed in the 6th Dimension
- Color Codes
- Sound Codes through the 9th Ray of Creation
- and, if desired, the power of the Flower of Life/Metatron's Cube

YOU CAN EASILY ALTER YOUR CREATION AT ANYTIME:

FEELING the flow of yourself as pure Divine Creativity, in a 5D state of consciousness

- move the geometry of your intention back into the fluid Light of the 5th Ray,
- send energetics you don't want back to the 6th Ray of infinite possibilities
- bring in different energetics from the 6th Ray into the 5th Ray
- and reorganize them in the 5th Ray in a precise geometric fashion
- revitalize your geometric creation with the 7D Template of Light, Source Magnetism, Love and Unity, Color Codes, Sound Codes
- then bring your revised creation back into manifestation on Earth with the 4th Ray
- further empowering it, if you chose, with the Flower of Life/Metatron's Cube

POSSIBLE WAYS TO FURTHER INFUSE YOUR CREATION WITH THE FLOWER OF LIFE:

There are many beautiful, powerful ways to bring these creations into your life on Earth, ways which allow you to FEEL this creation as real and alive in your energy space.

Infuse your creation with the fire of the combined flame of the Heart and Pineal

Breathe Love and Light into your creation to bring it into Life

Watch this creation flow throughout your mental-emotional body, your etheric body, and into every cell, molecule, atom, and sub-atomic particle of your physical body, re-arranging all of you, all of your DNA, into a higher frequency 5th Dimensional level

Using the Flower of Life, you can program with specific qualities and practicalities the 6 leaves of the Seed of Life or the 13 spheres of the Fruit of Life.

Be sure to spin these qualities into existence within these petals or spheres.

You can shrink this model of Metatron's Cube/13 Spheres of the Fruit of Life very small into every cell and every atom of your body, and/or expand this model of Metatron's Cube/13 Spheres of Life into the vastness of infinity

There are an infinity of other possible ways to bring in the power and precision of the Flower of Life and Metatron's Cube:

Consider surrounding your creation with a tetrahedron, one of the Platonic solids within Metatron's Cube, bringing in the Element of Fire.

And/or you can surround your creation with the Cube, bringing the stability and grounding of the Earth Element

If you need more of the Air Element in your creation and your life, use the Octahedron Platonic Solid

If you need more of the Water Element, use the Icosahedron Platonic Solid

To bring in the Element of Ether, use the Dodecahedron Platonic Solid

You can combine the use of various of the Platonic Solids, which bring in the Elements.

For instance, you could project the Fire of the Tetrahedron onto the Cube of the Earth Element, to fire up and ground/stabilize your creation
