

It is I, Metatron.

I come from the Collective Consciousness of the All That Is. And I am here in that tetrahedron configuration of myself, Michael, Lord Melchizedek, and Archangel Uriel. And I will be in the forefront of this tetrahedron for this question and answer session.

But before we begin with your questions, I have a few words to say to you that are very important for you to hear. So, listen carefully:

The last session there was a lot of confusion. And, in a way, it was intended to be so. Now, it wasn't from outside influences. We didn't manipulate that to test you. Understand that with this spinning of these tetrahedrons to that 100% speed of Light, anything that was outside of that field of energy was kicked up. And your rational mind activated, trying to understand what was happening. Your ego really came to the forefront: "Wait a minute, things aren't safe here!"

In earlier conversations some of you voiced that very thing, that these things that surfaced – it was a little rocky at first – but they were of such benefit, because you realized what was happening and where you were in this process. But the longer you allowed yourself to work with this field and merge it into that stable star tetrahedron, things immediately started to shift and change in your mental-emotional body, and within that, Sacred Heart consciousness came to the forefront. And you viewed what was going on in fragments of that mental-emotional body – what triggered you. You became very, very conscious. And you either let it pass through and continued to dissipate and be eliminated, or you did a little work and adjustment.

This was a very valuable experience, for each one of you. The trust in Self that came from this was quite extensive. You began to see yourself from that consciousness of your Sacred Heart, that you were valuable, that you achieved a level of confidence that sometimes has been elusive to some of you. So, you can already see the value of having consciously activated your Merkaba field..... and not demanded, but began very firmly to command it to operate at that rate of 100%.

[4:11] You are – it is your vehicle, after all, your vehicle of Light. It is a massive vehicle. It extends out in many directions, to as much as 55 feet from your physicality. Can you imagine the impact that those Light frequencies have as you walk the Earth, as you interact in your various relationships? Can you imagine just going into a public place, being very conscious, not superior, but conscious, emanating that level of Light!

You need do nothing; you need say nothing. You just ARE that magnificent emanation of Light. You ARE the Christed Image. And you have a vehicle that supports that Light environment for your Light Body to express itself in the world.

This was a magnificent event that took place in the last session and the weeks afterward, until we gathered again this evening.

So now, let's open this up to questions relating to the work that we have been doing and the activations that we are doing.
