

# OW53Q OW SERIES

5.25", 2-WAY, FULL RANGE, ON-WALL LOUDSPEAKER - 3.5" DEPTH

- (4) 0.75" (19mm) Aluminum Dome Tweeters**
- (2) 5.25" (89mm) Aluminum Woofers**

The On-Wall series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, on-wall design. The OW53Q is just one of these multi-use speakers. Boasting a compact design this speaker easily integrates into any environment. With the James high excursion proprietary woofers, and the signature James aluminum dome quad-array tweeter, this compact speaker offers silky smooth response across a broad range of frequencies from 24kHz all the way down to below 68Hz, with an impressive sensitivity of 89dB. This versatile speaker pairs perfectly with the James SPL5Q series to provide a compact surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The OW53Q is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes a stainless steel perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately.

For outdoor/marine applications order the OW53Q-M.
