WINE BY THE BOTTLE

Our list is organized in order from lighter to heavier wines.

The core of this list celebrates producers who believe healthy soils are the foundation for growing healthy grapes. The resulting product most often produces wine of ENERGY, LIFE, & VIGOR.

Many of our selections are considered NATURAL WINE and have been made with grapes that are grown organically, biodynamically, or sustainably. We also carry a few wines made CONVENTIONALLY that respect place and process.

Most importantly wine is love and it is alive.
