

THE LEADING ALTERNATIVE INVESTMENT MANAGEMENT SUMMIT

GENEVA EDITION

12 June 2019

Hotel President Wilson

AIM Summit© organization's events are exclusive gatherings created to connect global investors – institutions, family offices, sovereign wealth funds, private investors and fund managers, in the world of alternatives. Our conference events give participants exposure to cutting edge thinking in alternative investing and provide unparalleled networking opportunities.

After many successful editions of the AIM Summit in Dubai and Abu Dhabi over the past 4 years, AIM Summit is convening in Europe for its debut at Geneva. This edition's primary focus will be on sustainability in agriculture and its investment dynamics presented by the World Economic Forum. The event will feature prominent speakers from the investment, agriculture and sustainability sectors and will explore current trends and opportunities in agricultural investing. Our opening speaker will be Peter Rockefeller who will bring us the current thinking in sustainable agriculture investing and the interface between philanthropy and sustainability in target markets.

Smiling Gecko is a slightly different charity. We try to be economically sustainable in our country of action. So we want to save as many people as possible from poverty and create education, be it in vocational and adult training or in our school education. It is important that we have established that it is not just about the individual people but that one must try to develop large-scale economic growth and spaces, so that the individual people can evolve.
