Pre-Forum Workshop

September 18

Leveraging Emotional Intelligence

Every interaction we have, either in our personal or professional lives, will have one common denominator – self. Emotional intelligence is about managing your emotions and the emotions of others to have better relationships and make better decisions!

Join this workshop to better understand the emotional intelligence concepts that can help and hinder us from bringing our best selves to our family relationships, work relationships and family business.

Learn how to bring out the best in yourself
and the best in others!
