

Biblical Worldview Training

Worldview is the lens through which we view all of life. Everyone has a worldview, but few people realize it or think about it. A person's worldview is created by parents, friends, teachers, academia, media, the popular culture and more.

Unfortunately, a person's worldview can lead them to have an unfulfilling life or even a tragic life.

This area will help you begin to explore your own worldview and hopefully challenge you to think and see more biblically in all of life.
