

2013 DevOps Conference Survey Results

Summary of results

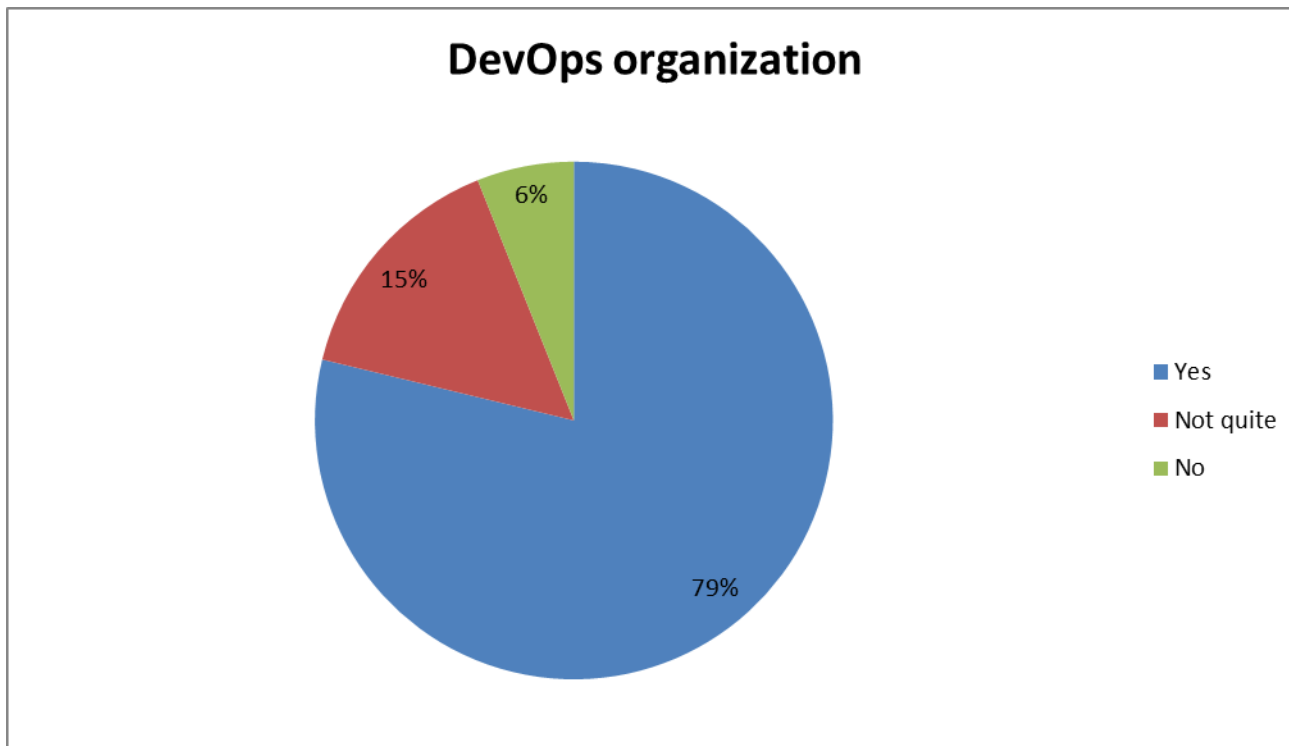

- Survey taken at 2013 DevOps Conference held in Boulder, CO
 - Audience was primarily Foundry Group, TechStars, and Bullet Time Ventures companies
 - Conference co-founded by JumpCloud & SoftLayer
- Two major themes of survey results
 - Automation – critical to success
 - Lack of time – too many tasks / priorities
- Surprising data
 - DevOps taking hold quicker than anticipated with smaller orgs
 - Basic tasks still too manual (e.g. patching)

How many employees?

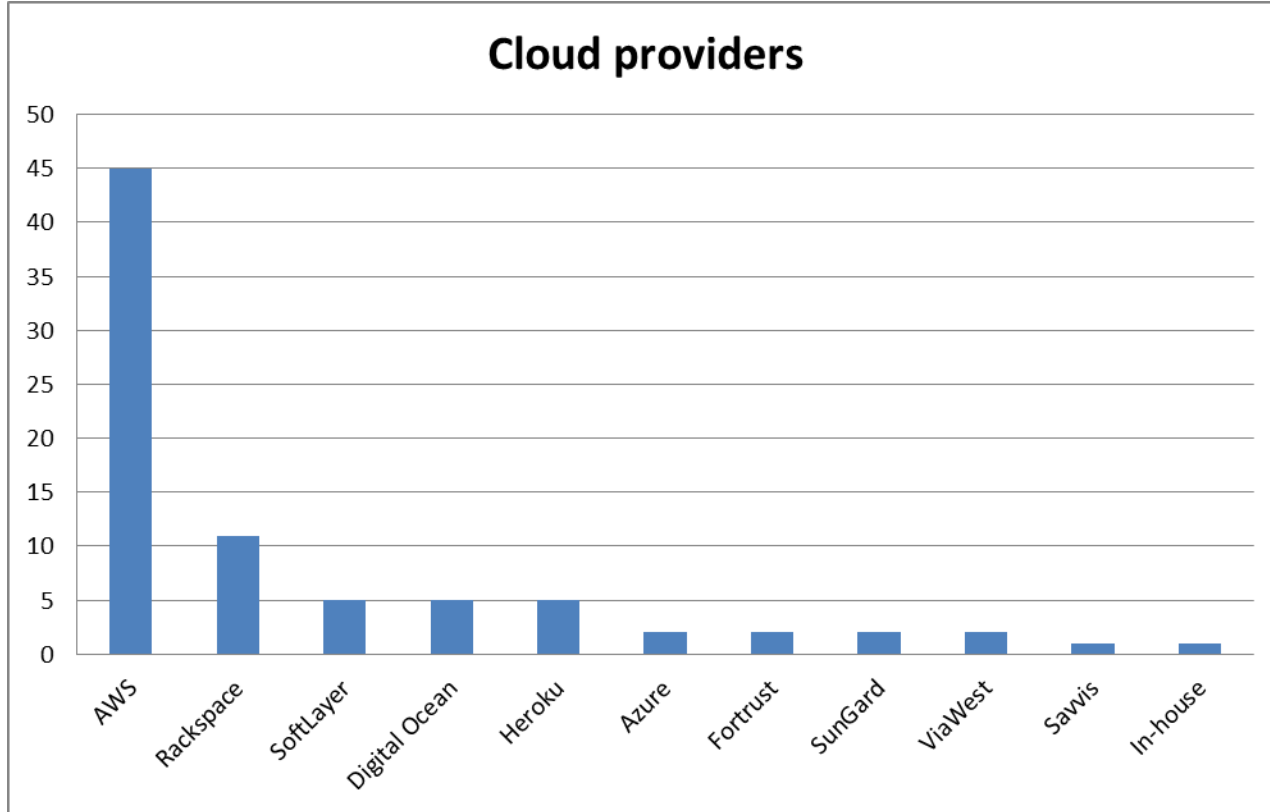

Respondents: Number of Employees

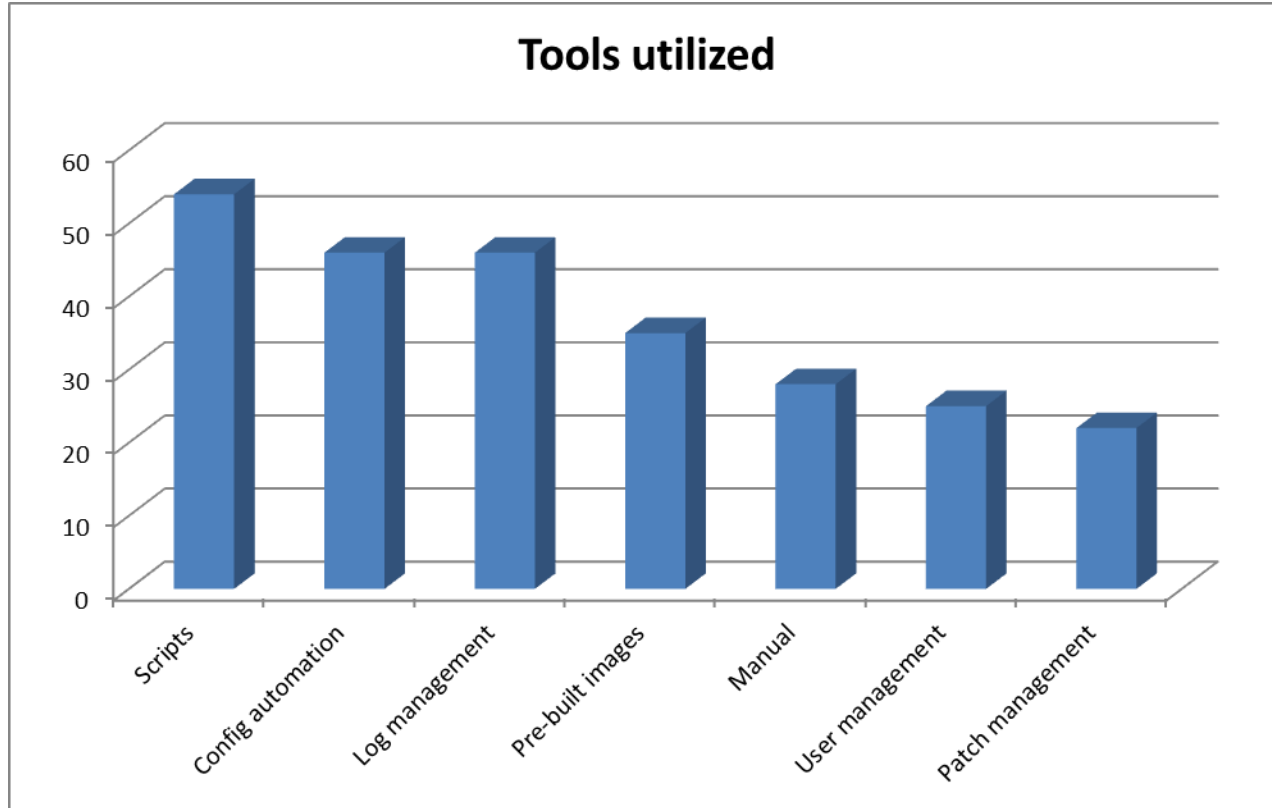

Are you a DevOps organization?

Where is your infrastructure located?

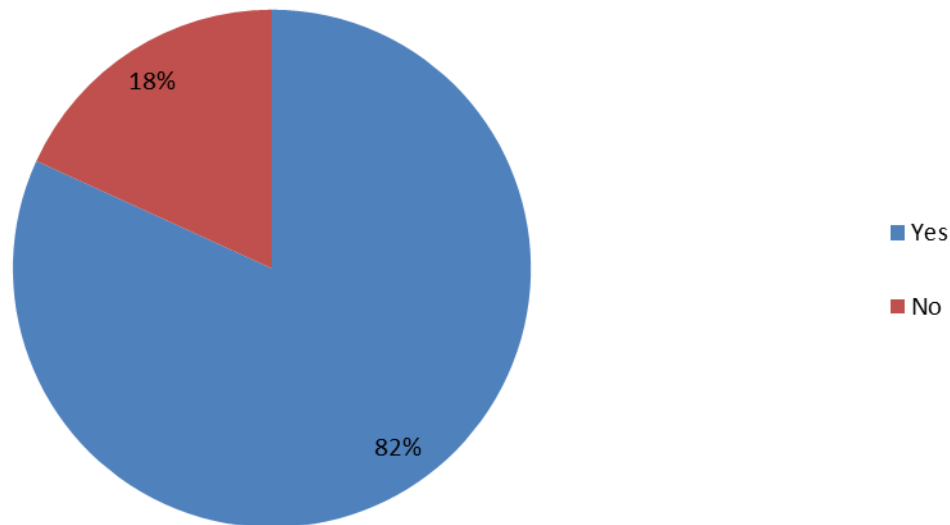

What tools do you use?

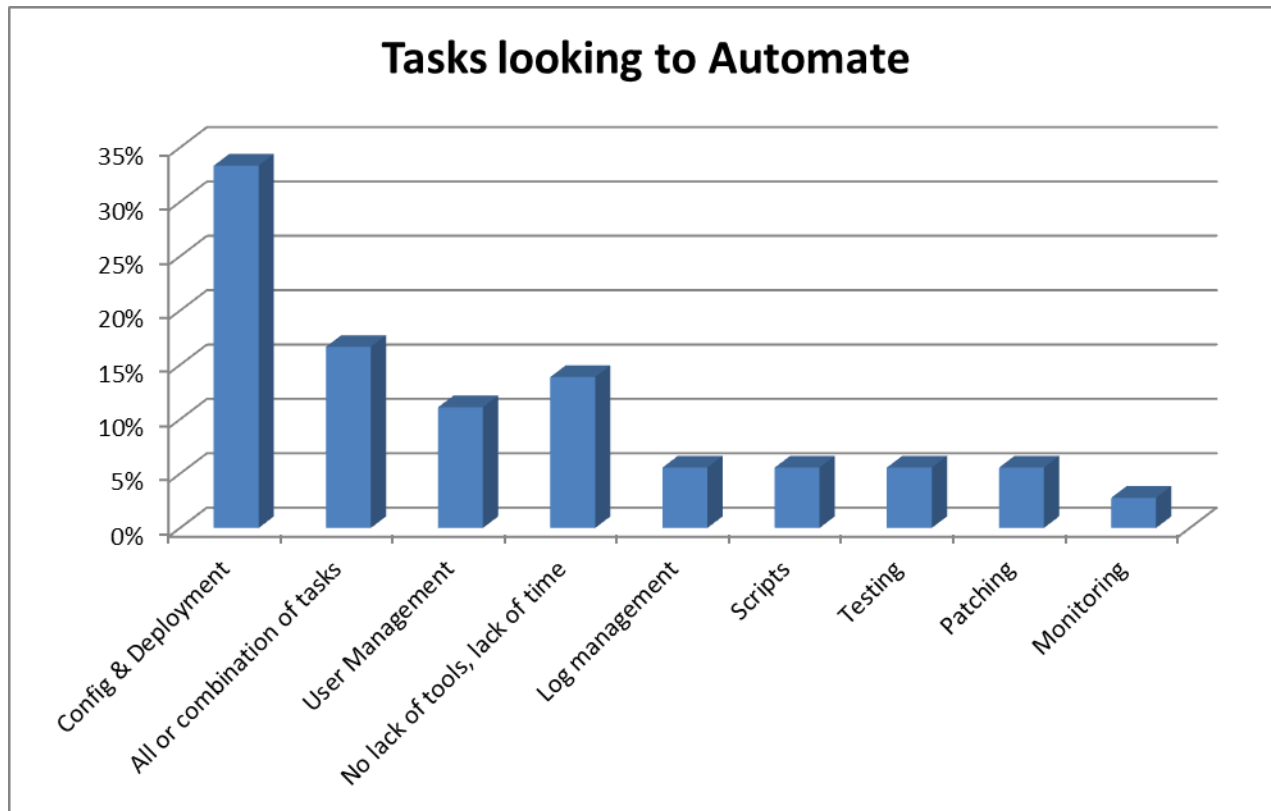

Are you looking to automate more?
