

Global, inclusive, done-for-you, live, online awareness day events by Leqtur

Engage your entire workforce with fully managed, globally inclusive, live interactive awareness day events built around key diversity, mental health, and social impact moments.

What is Leqtur?

Leqtur provides a fully managed platform for live interactive awareness day events that help organizations support, educate, and engage all employees around key global awareness moments. Each event is white-labeled, allowing employees to experience the awareness day, week, or month on a branded landing page tailored to your organization.

ELA is delighted to partner with Leqtur to provide high-quality, easy-to-administer and low-cost awareness day programming as a value-added service to all ERG Leaders and Oversight Program Managers.

These interactive learning days are led by expert speakers from around the world, focusing on vital themes such as diversity and inclusion, mental health, and social impact. Each event is tied to a key global awareness moment, like International Women's Day, World Mental Health Day, or Pride Month, with sessions carefully selected to match the theme.

From allyship and neurodiversity to intersectionality and belonging, each session is intentionally crafted for today's evolving workplace.

Leqtur's process is designed for simplicity and effectiveness - [see here for a great example](#).

LEQTUR

About Leqtur

Leqtur is based in the Netherlands and UK, which adds to ELA's global messaging and support of the GDPR and other requirements for programming that are often challenging to support. See [their website](#) for additional information about the organization and their client base.

What's Included with Leqtecture

Unlimited Participants

All your employees can join the live sessions that best fit their schedules. Each session lasts up to 60 minutes and is interactive, energizing, and led by thought leaders from around the world. Choose one-off awareness day or bundles of 4 to 10.

Accessible for All Employees

Everyone can join, including blue-collar workers without a company email, Teams account, device, or any technical know-how. Just one click on the link your organization shares, and they're instantly on your branded live event page. No logins. No hurdles.

Compliance and Quality

Offering GDPR-compliant platforms and maintaining high-quality standards through professional moderation.

Professional Moderation

Skilled moderators keep the energy high, the dialogue inclusive, and the flow seamless from start to finish.

Branded Landing Page

A custom event page featuring your organization's logo, messaging, and assets—so it feels like your event, not someone else's webinar.

Internal Promotion Tools

Done-for-you internal promotion materials and graphics help you drive attendance and turnout without draining your internal comms team.

Live Captions in 20+ Languages

Sessions are captioned live, making them globally inclusive and accessible.

Time Zone Friendly

Sessions are scheduled across the day to catch employees wherever they are in the world.

Follow-up Recordings

Recordings are available for 3-6 months after the event, giving employees plenty of time to catch up.

Actionable Analytics

Insightful feedback and data help you measure impact, not just attendance.
