Explanation of Adaptations · Level 1

TUMBLING DIVISIONS · 91 POINTS · 2027 SEASON

Companion to the Level 1 Rubric. This summarises how Legacy's scoring differs from the [IASF Elite L1 Scoresheet](#). Applies to **School Level 1, Masters Level 1, and University (tumbling) Level 1**.

WHAT LEGACY CHANGED

- Base sheet: the **IASF Elite L1 Scoresheet** (96 points).
- Stunt Difficulty is capped at **10**: the high range becomes 6.0 to 10.0 for **three or more** level-appropriate skills, instead of 6.0 to 15.0 for four. This is the only change to the totals, taking the sheet from 96 to 91.
- The **Coed stunt chart is removed**. At Level 1, Coed teams are scored on the same stunt chart as All Girl teams; the single-based requirement starts at Level 3.
- Pyramid minimum drops from four level-appropriate skills to **three**.
- Jumps require **two** advanced jumps instead of three, and the jumps **do not need to be connected**.
- The **Legacy Expanded Quantity Chart 2027** is added for teams outside the standard athlete-count ranges.
- All Technique and Overall scoring is unchanged from the IASF Elite L1 Scoresheet.
