DENTAL ASSISTING
& BEYOND

THE TEAM APPROACH

- Increase Team Efficiency
- Reduce Your Stress Levels
- Lower Expensive Staff Turnover
- Improve Patient Satisfaction
- Increase Profitability

As a Practice Manager/practice owners your main concerns are compliance, patient experience, staffing and profitability.

What you want is a team of highly trained, efficient, hard working staff who preempt the needs of the patient and dentist.

You want to be renowned for excellence and you want to maximise profits.

It's time to get your whole team aligned and working together seamlessly.

In-person trainings are the perfect solution for practices who want quick, laser-focused training that is tailored to the specific needs of your practice.

Dental Assisting And Beyond provides this training for busy practices across two sessions in one day.

AM
Morning Session

Clinical Observation
Identifying areas for improvement

PM
Afternoon Session

Focused Training
Implementation of necessary training for the team

AM

CLINICAL OBSERVATION:

- **Overview of DA set up** – avoid disorganised, inefficient and stressful appointments
- **Ergonomic** – observing staff member movement & positioning
- **Stock control** – reduce costly stock and equipment waste
- **Clinical treatment** – Provide outstanding care
- **Treatment changes and adapting protocols** – ensure your whole team understand what to do when something goes wrong
- **Teamwork dynamics** – get your whole team on the same page and improve work ethic and employee satisfaction

PM

FOCUSED TRAINING:

- **Practical demonstrations of surgery workflow** – a hands on approach to ensure optimal learning
- **4 handed dentistry made simple** – save time and improve patient care
- **Ergonomics Chair Side** – reduce sick days and ensure wellbeing for your staff
- **The Whole Team Approach™** – have all staff working as a team and promote forward thinking
- **Individualised guidance and feedback from our head trainer, Rochelle** – bespoke training that makes all the difference

We recognise that every dental clinic has unique requirements and challenges. Therefore, our training is customised to accommodate the specific needs and goals of your team. Whether you are focusing on enhancing surgical techniques, improving patient care protocols, or optimising workflow efficiency, we adapt our curriculum to address your priorities effectively.

The only thing worse than training your employees and having them leave is not training them and having them stay.

~ Henry Ford

★★★★★ a year ago

Rochelle is a fantastic communicator and helped keep our entire team engaged while she demonstrated tips and tricks to help our team work more efficiently. She also has a wealth of knowledge within the field and her training was tailored to the needs of our clinic and helped fill any gaps in knowledge that our team had.

Such a great day having the ladies at our clinic today! I've done many training days over the years and this was by far the most enjoyable. It was informative and engaging and also a fun team bonding day with lots of laughter.

Rochelle came into my workplace on a Saturday, to fit in with our clinics schedule! It was such a fantastic course, informative and engaging.

You can really tell how passionate and knowledgeable she is by the way Rochelle conducts herself and her courses, overall a fantastic day and came away with so much new knowledge! Was an absolute delight to attend her Dental assisting and beyond course.

Meet Rochelle!

27 years ago I started my very first dental nursing job in the UK having studied at Leeds Dental Institute. I went on to work with dentists, consultants and professors worldwide in practices from the UK to Australia.

I've been a surgical dental nurset for most of my professional life. I've coordinated treatment and clinical practices for the likes of Larry Bengé and Prof Weisenfled and I have hours of "in the trenches" experience.

I know what makes a practice profitable, compliant, safe (for patients and staff alike) and stress free.

Four years ago I founded my very own training company, **Dental Assisting And Beyond (DAB)** to support and educate practices in surgical and general protocols and techniques around Australia.

I believe in the whole team approach (thorough training for the entire team) and I'm passionate about education, training and best practice.

DAB exists to make your practice safer, more efficient, happier and more profitable.
