

10 **mandamientos** **del inglés**

These are the **10 rules of learning English fast.** You need to apply all of these if you want to learn fluent English in 7 months. If you skip 1 of them, this will **seriously slow down** your progress.

1 ***You need to speak every single day***

If you are ***not speaking*** every day, your speaking will hardly improve.

Some days your English will feel amazing. Some days your English will feel bad. This is all part of the process.

2 ***You need to immerse yourself in the language***

You immerse yourself in the language by:

- Learn English while doing other things. You don't have to sit behind a desk as much as you think.

You can learn fluent English while doing the dishes / cleaning your apartment / driving in your car / traveling / walking on the street / waiting in line.

While driving, connect your speaker to bluetooth and listen to something by learning English. While doing other tasks, put on your headphones so you can clearly listen to the pronunciation. For example, if you know you are going to clean today for 30 minutes, see this as an opportunity for you

to **learn English for 30 minutes.**

- Putting your phone in English
- Watch 1 episode of a TV show every day in English
- Go to 1 live class every single day where you practice your speaking

3 ***You need to have a fun teacher who is a native speaker***

Learning English should be an enjoyable experience otherwise ***you are never going to stick to it.*** This can be achieved by 2 things:

- Using a method that actually works. If you use a ***method that actually works,*** you will have the feeling of progress. This is an incredible feeling and it will make you enjoy learning English more.
- Having a teacher that is fun. You need to have a ***teacher that is actually fun!***

4 ***You need to watch 1 episode of a comedy TV show every day in English***

Watching a comedy TV show is very useful because the English is easy to understand and they speak very clear. You can use subtitles in English or Spanish to understand things better. Make sure to watch the episodes again and again, every time you will understand it better. Try to avoid complicated movies / shows.

5 ***You need to focus on common phrases, not on (uncommon) words***

Did you know 99% of the English language you almost never use? Make sure to only focus on the 1% that actually matters. Stop focusing on nouns such as “Dolphin” because you never actually use this word in daily conversation.

Instead, focus on:

- Tengo que = I have to
- Voy a = I'm going to
- Necesito = I need

The phrases that are used every single day. Only **focus on these phrases.**

6 ***You need to stop being afraid to make mistakes. The only way to learn is to make mistakes***

Do you want to have access to a method where you speak in every class, with Native teachers from the USA that **you enjoy learning** with? Make sure to open the email you received and book a call.

9 ***You need to have a personal reason to learn fluent English***

Write down what your reasons are to learn English.

Do you want to learn fluent English to get a **higher salary?**

Do you want to learn fluent English because you would **feel more confident** in the country you live in?

Do you want to learn fluent English as a **personal challenge?**

Do you want to learn fluent English so you can **understand English shows and music?**

Do you want to learn fluent English **so your children will also learn** fluent English?
