Media"
ACS Nano, Vol. 16, Issue 2

Hello! My name is Reagan Gately. I am a 3rd year medical school student enrolled at Baylor College of Medicine. I was homeschooled K-12 and am a practicing Catholic.

This summer I am offering online, no-cost seminars to demystify the path to medical school.

I will cover topics such as:

- What are medical school admissions boards looking for in a prospective student?
- What are priority academics in both high school and college if medical school is a goal?
- What types of extra curricular/community activities gain the attention of both college and medical school admissions boards?
- Which activities are a waste of time?
- How do I build a work resume that matters in the application process?
- What are effective ways to network in order to have the right people in place to write compelling recommendation letters?
- Also offering free transcript/resume evaluations.
- Seminars are open to parents and students.

Seminar Dates Scheduled For Summer 2026:

June 27 ~ July 11 ~ August 22
