4 Minute Timed Core Conditioning Circuit

Set timer for 4 minutes and complete as many rounds as possible with good form before time expires. Here is a key to greater results: fully contract your “stomach muscles” as if you were bracing to be punched. COMMAND your muscles to work!

Mental Conditioning: In neuroscience, there is a principle called “what fires together wires together”. Simply put, whatever you focus upon while you do something determines whether it is pleasurable or painful.

For example, if you think “this sucks! ouch! how many more?!? I hate this! can’t wait until this is over!” then you program this belief with exercise. Eventually, you will quit.

However, we can also do the opposite.

😊 SMILE and focus on something positive. “I AM getting Stronger with every breath! I AM learning to LOVE this! I AM made for this! YES! I got this!” or whatever inspires you!

This may sound silly but this is research proven and the foundation for creating lasting change!

Let’s do this! 💪🐾🙌

Exercise	Reps	Notes
A1. <u>Reverse Crunches</u>	8	hold top 1 sec. No momentum
A2. <u>Straight Leg Raises</u>	8	hold top 1 sec and fully contract abs
A3. <u>DB Toe Touch Sit Up</u>	8	Hold weight or water jug or anything
A4. <u>Single Leg Twisting Crunches</u>	8 each side	
A5. <u>Bent Knee Hip Up</u>	2 (hold at top and squeeze for 2 sec)	Strengthens lower back, glutes

Circuit 3: Attack | Rounds: 1

Choose any type of continuous movement.

For the first 10 minutes alternate 60 seconds of KILLIN (higher intensity) with 60 seconds of Chillin (lower intensity).

After 10 minutes, continue for another 10 minutes at a steady pace.

For example, Killin could be Running, Chillin could be a fast walk. The steady state could be a slow run or fast walk.

The goal is to elevate your heart rate, sweat and focus completely on what you want to create today.
 “Keep All Out of Mind Except The Vision You Want”

With Practice This Becomes Automatic and forms the foundation of a life of no regrets.

Exercise	Reps	Notes
A1. Cardiovascular Conditioning	-	20 mins total

THURSDAY

Circuit 1: Arise | Rounds: 1

“If you don’t dig it then you won’t keep doing it.” These words were spoken to me by Juan Carlos Santana and they are true for everything in life.

This does not mean you avoid the things you don’t enjoy.

It means you devote yourself to mastering your mind and body so that you learn to enjoy everything life throws your way.

This is the great gift of Training the way we do here.

Today decide how you are going to show up!

Then “BE” that no matter what.

Provide no other options and it will be so.

It is not complicated but it is not easy...at first.

Over time and with consistent and relentless daily Training it becomes natural and instinctive.

Training can be something you have to do so that you don’t hate yourself or it can be a Spiritual Process that connects you to Source...to your Best Self. You can be the victim of life or the creator of it. The choice is yours.

You are a LION...not a lamb. Let’s go! 🔥💪🐯🙏
