

Your wedding *music planner.*

From the first guest arriving to the last song of the night: everything your DJ needs to know, in one place.

01

It's so much easier (and more fun!) on a computer, so grab a cuppa. Type your answers in Adobe Acrobat Reader or Apple Preview, not a web browser, so they save. Please don't use Google Docs, as I can't access them.

02

Take your time. Leave anything you're unsure of blank.

03

Add a Spotify playlist for each part of the day, or type your songs in.

On your phone? Install the free Adobe Acrobat Reader app. **iPhone:** open the planner, tap Share, then Acrobat. **Android:** tap Open on the download, then choose Acrobat. Tap any box to type, then share it back to me by email.

02 Plan it on Spotify

The easiest way to plan your music, and you can keep adding right up to the day.

01

In Spotify, create a playlist for each part of the day, for example "Our Ceremony" or "Our Must-Plays".

02

Open the playlist, tap ··· then *Share*, then *Copy link*, and paste it into the Spotify box in each section.

03

Keep adding songs whenever you like. I'll always see your latest version.

Prefer not to use Spotify? Every section also has space to type your songs.

03 The ceremony

The music that frames your "I do".

11 Anything else?

NO RUSH

There's no hurry to complete it. Build it as your plans develop, then send it back in time for our final planning meeting, a fortnight before the day, and we'll go through it together.
