The purpose of our clinic is to relieve pain, restore health and improve the quality of life in each patient we accept for care. For us to properly understand your health problem we need a complete history of your present symptoms (Should you have any.) We also need information about your general overall health. This in-depth knowledge will help us determine the type of care needed and give some indication as to what can be anticipated in your case. Please answer every question completely and to the best of your ability. By doing so we will not have to ask you a lot of questions about health problems that do not pertain to your case. If, after consultation and/or examination, we do not sincerely believe you will benefit from Chiropractic care, then we will find the right professional for you. Thank you for you cooperation in completing this form.
