

# Winning PITCHES Give CONFIDENCE

*Use Basic Brain Science to Ask & Get What You Want*

**½ day WORKSHOP + 1x1 Coaching**  
*Hands on - Delivered Onsite or Virtually*

Unlike a presentation, pitches only have two possible outcomes: yes or no. This creates uniquely confidence-challenging behaviors for both the person pitching and the people receiving it.

Your pitch tries to convince someone to invest, buy, approve, or join. However, they won't act just because you have an artfully crafted message or slide deck. More important than the ROI data or stories you share, your audience subjectively decides if they trust and believe that you can and will help them. To win their business, you must demonstrate authentic confidence in your company, your product/service and yourself.

This brain science-based pitch bootcamp teaches you how the human brain works to best drive your own and other people's behaviors. Get tips, tools and expert coaching to confidently craft, deliver and defend pitches that succeed.

## Attendee Outcomes:

- Increased hit rate – *understand what decision makers need intrinsically to confidently take action*
- Shorter sales cycles – *accelerate decision making by removing confidence-challenging obstacles*
- Standout from competition – *be the one they trust and confidently want to work with*

*"I found it to be immensely useful ...  
Alyssa is a fantastic teacher!"*
