and Montville Township Recreation
Children Ages 5-12
Creative Activities to Challenge
Your MIND and BODY!

Zoom Links given weekly for all classes

1) Pathways Drawing and Painting : (Ages 6-8)

The children will understand perspective and how to turn what they can imagine into art using lines, shapes, and colors. This session will learn about shading, patterns, and symmetry. They will use pencils, colored pencils and watercolor paints. Art kits will be provided that include most of the things your child will need for the class. We will email you when you can pick the kits up before the class begins. Fee: \$90

WHEN: Tuesdays: Feb 23; Mar 2, 9, 16, 23 & 30 from 4:30pm-5:30pm. **OR**
Wednesdays: Feb 24; Mar 3, 10, 17, 24 & 31 from 3:30pm-4:30pm

2) Pathways Drawing and Painting: (Ages 9-12)

Does your child like to draw portraits, animals, or landscapes? You name it, they can learn to draw and paint it. This class gives them the freedom to do it. The children learn how to incorporate shading, shapes, lines, patterns, symmetry, colors and other skills into their drawings. The children will help each other to evaluate their work, find solutions, and learn to see the world more clearly from an artist's perspective. Art kits will be provided that include the things your child will need for the class. We will email you when you can pick the kits up before the class begins.

WHEN: Tuesdays: Feb 23; Mar 2, 9, 16, 23 & 30 from 3:30pm-4:30pm Fee: \$90

About Pathways Art Instructor:

Artist & Illustrator, Georgianna Manderioli, known by her students as "Miss. Mimi" has been teaching art to all ages for over 30 years. She loves guiding PreK and Elementary Age children on their journeys through art. Her fun and nurturing ways have helped children express themselves, enjoy a positive experience, and to appreciate the beauty in art!

3) Intro to Dance: Hip Hop, Bollywood, and Party Dances (Ages 5-8)

In this class, students can express themselves through dance. Students will learn about basic dance styles such as Hip Hop, Bollywood, and Party/Pop and practice dance steps/routines to fun songs. We will warm up each week with some breathing, yoga, stretches, and exercises. By the end of this class, students will be able to perform a full dance routine. The goal is to develop a passion and love for dancing, have fun, stay active, experience different styles of dance, and learn some choreography to show off at your next dance party! The class fee is \$60.

WHEN: Saturdays: Feb 27; Mar 6, 13, 20, 27; Apr 3 from 10:30am-11:15am

FUN
With ART
& DANCE!

6) Pathways Block Coding: (Ages 7-9)

This is the first level of computer programming at Pathways. During this class, the students will learn how to block code using Minecraft, Star Wars, and other fun games. Block coding is similar to fitting pieces of a puzzle together that create code in the computer. The code is then used to help characters to move to accomplish specific goals the programmer designs in a game. Upon completion of the class, the children will have basic understanding of the fundamentals of the block coding and the knowledge to apply these skills while developing their own simple video games and apps. Fee: \$80

WHEN: Fridays: Feb 26; Mar 5, 12, 19, 26; Apr 2 from 4:30pm-5:30pm

7) Pathways Python Programming Level 1: (Ages 9-12)

Students will begin to learn the fundamentals of Python. They will fight evil monsters using code. Students will be introduced to variables, loops, and the Python Turtle library. By the end of this class, students will be able draw basic shapes with Python Turtle. Fee \$80

WHEN: Tuesdays: Feb 23; Mar 2, 9, 16, 23, 30 from 5:30pm-6:30pm.

8) Pathways WeDo Robotics Level 1 (Ages 6-12)

This class is for children of all ages. It is an introduction to robotics. The children will block code on the computers and send commands to the Lego robots they build. The students will learn about basic sensors and robot mechanisms. The classes will be done virtually. The robots are expensive so cannot stay at the child's home. The parents will pick up the robot before class, at 4:00pm, take it to your home for the virtual class, and return it after the class. It is similar to you dropping off and picking up your child to class but instead you transport the robot. Any questions - email:

info@PathwaysKids.org. Fee \$80

WHEN: Tuesdays - Feb 23; Mar 2, 9, 16, 23, 30 from 4:30pm-5:30pm

9) CAD Programming Level 1 (Ages 8-12)

Many kids have been asking to learn how to do CAD. What is CAD? It is a computer software that enables kids to design whatever they want in 3D. The children will learn to use a software called TinkerCAD and will design basic 3D projects. By the end of the 6 weeks we will print a 3D project the kids designed using a 3D printer! Fee: \$80

WHEN: Wednesdays - Feb 24: March 3, 10, 17, 24, 31 at 6:00pm - 7:00pm

Children of all abilities are welcome at Pathways for Exceptional Children!

All ABOVE CLASSES ARE VIRTUAL ON ZOOM - Links are sent weekly
