

SPECIALIST PROFILE

Jillian Searant – Mental Health & Safety Specialist

Jillian has over 16 years of experience providing health and safety support and advice to a variety of environments within sectors such as finance, real estate investment and management, manufacturing, mining, utilities and renewable energy. Her roles include membership and client consultancy, safety, health and environment management, systems review, incident investigation, training facilitation and lead auditing.

Prior to her work in safety Jillian worked in industrial chemistry monitoring environmental and operational process compliance in the mining and manufacturing sectors.

Jillian's strengths are her broad experience from developing and implementing mature safety and environmental management systems and strategy to providing up to date solutions to control for industry specific risks and loss prevention. She is passionate about linking initiatives from these areas to create or improve health, safety and wellness within organisations to achieve positive outcomes for clients.

Jillian is a Principal Master Mental Health First Aid Instructor and works closely with her clients to implement Mental Health and Wellbeing strategies that are relevant to individual workplaces.

Jillian has worked with clients in the following areas: manufacturing and production work environments; mining; construction; utilities; entertainment; aviation; finance; office and retail.
