**International Course Curriculum
2017 – 18**

Hello, and thank you!

I honour you for taking interest in our training curriculum. You know, most professionals are not yet where they want to be in life. They haven't yet achieved the success, profits and the lifestyle that they planned for when they started out on their journey. In some cases, they carry high level qualifications but good jobs are so few and the competition is stiff.

They end up stuck in the here and now of the low paid jobs and hope that they don't get fired or suffer redundancy, without really getting enough time to plan their future. You know that moment you worry about the legacy you will leave or the life you are living and search for meaning. You always looking after employers, customers (and staff) and with little or no time to do things that will move you towards your goals.

That was me a few short years ago. I was running my own charitable company and having lots of contracts to sustain the great work, I became a victim of change of government and the recession, funders tightened their wallets and we lost all contracts and it became hard to fight for the ever-dwindling funding pots. I moved from helping people to running to the welfare office for help myself. I nearly lost my home and I was barely surviving.

I went back into the nine to five in a respectable senior management job. I ended up being bullied by my boss and I couldn't stand the bureaucracy and politics that came with the job. It was like selling my soul to stay afloat. I longed for that freedom of being my own boss, but the debt had mounted and I needed to keep at it. Then one day someone threw me a fishing rod. I left the 'permanent comfortable' job and took a risk of a 4 months interim contract. The contract paid me lots more, and I enjoyed not being part of the institution.

That was the best decision I made! I looked at my life and repositioned myself, invested in educating myself never to be in the position again. I took a coach and a mentor and travelled back and forth from the UK to USA to train with the best online Marketer of this day Brendon Burchard. I can talk about this a lot but today is about you. It's safe to say I moved from Debt to starting three lucrative businesses in 12 months. Yes three! I learned to have a good relationship with money and diversify my income. I also made a lot of millionaire friends through my trainings both in the UK and the USA.

Are you still too comfortable where you are? Or do you long to escape the rat race? If that sounds like you, then read on and see what my team and I can do with you and for you! it may just be what you need to change your life – and then lives of those around you.

You see, we all can determine our own success, our income, and therefore our lifestyle and the lifestyle of your families. We just need two things TAKING ACTION and THE RIGHT SUPPORT or simply TO DO!

Too many of us fail to TAKE ACTION and consistently work towards our goals. Now there are hundreds of courses out there but very few help you to TAKE ACTION and give you implementation tools!

All those great ideas will come alive one day, right? If you keep thinking about them and not acting, sadly they will not. You want a curriculum that will turn those thoughts into action and that is where we come in.

Our Course Curriculum is all about implementation and action, we even hold you accountable and even give you swipe sheets.

The best way for any serious business professional is to get their business/career to where they want it to be.

Our Courses are for you whether you want this as primary business or as a side job, **though I can assure you, if you work hard enough you will be putting your time into being your own boss and not making someone else (your employer) rich.**

The curriculum is immense. It's the culmination of everything I have learned over more 20 years of work, training and business. I have been helping people and businesses to markedly grow their dreams. My team and I have condensed it all into the most comprehensive package of training, coaching, accountability, support and practical execution help we can offer; a curriculum that delivers great visible results step by step.

For the right people, this will change your life. We only work with people that are serious about their success and are willing to take ACTION.

Our courses are 100% SATISFACTION GUARANTEE

I will leave it here and let you see what we have on offer on the following pages.

Cheers to your success,

**Amina Chitembo,
Founder and CEO.**
