## Fertility Fast Track: Private 6-Month Mentoring Program

***A multi-faceted approach to identifying and moving you through your blocks- attending to your mind & spirit, not just your ovaries.***

If you've been trying to get pregnant naturally, via IVF or otherwise and it hasn't worked, I can help. If you've been told you or your husband cannot biologically have children, I can help. If you want a child more than anything and are willing to do the work, I can help. The people signing up for this program are open, driven, want a NON-MEDICAL approach, and know that somewhere deep down they CAN actually do this, they just need some guidance. My system involves a unique blend of modalities that clears and shifts your energy with the reiki, and then from the intuitive visuals and feelings I receive while working on each area, I coach you on how to move forward from beliefs, patterns and situations that are no longer serving you. And that's when changes can start to happen on a cellular level. This will include some homework on your part, which will be discussed in each subsequent session to delve deeper to the root of the block; so your participation and willingness to do the work is paramount.

I have helped women conceive naturally and I can help you too. YOU DESERVE THIS. YOU CAN DO THIS. And I would love to show you how. This program includes:

- Three 90 minute phone sessions per month for 6 months
- Three 20-minute “necessity sessions” to be used over the 6 months for when urgent things come up in between sessions.
- Dual benefit of the reiki that relaxes and shifts your energy; and the coaching from the mindset shifting & intuitive hits I get while working on different areas of your body.
- UNLIMITED email access so that we can keep you moving in between sessions.
