2. Technique & Certification "Change your life"

As we begin this journey into the F.I.X. Code training and how it works, it's important to note that we deliver the message in metaphors and stories. Daniel teaches the theory and Stacey teaches how to implement the theory into our daily lives and our private practices. Talking about paradigms and how Parasitic Programs create negative emotional responses can be technical, so storytelling and metaphors make it easier to understand. Our goal is to make this fun yet enlightening and educational. We are so excited to deliver the F.I.X. Code to you. It has been our pleasure and honor to create this on-line training course for all of you who know in your hearts this is a big part of the future.
