

REDUCE BENEFIT PREMIUM WASTAGE

Over 12 years of containing costs for small businesses

OUR CLIENTS SAVE TIME & MONEY WHEN THEY CONVERT THEIR BENEFITS TO FLEXIBLE DIGITAL HEALTH & WELLNESS BENEFITS

WHAT OTHERS ARE SAYING...

We were initially referred to OnPoint back in 2008 by our Accountant. Tyler was able to free up over \$3500 a year and make it so that the employees could get the coverage that fit their lifestyle. His promptness and enthusiasm is why we continue to work with him today.

CAROL GREGSON, EXECUTIVE DIRECTOR (RET) PARENT SUPPORT SERVICES SOCIETY OF BC

Cost containment was our biggest concern in starting a new plan and OnPoint has delivered that for nearly 12 years. Our base costs haven't risen and staff love the flexibility of having the RRSP too. Tyler is always available and reliable in whatever he's proposed to us.

BRYAN SAKATA, FOUNDER, BKS CABELCOM

Initially I brushed him off because it was a cold call, but what he said struck a chord. Here we were thinking we were getting a good deal but really more than a 1/3 of what we were paying was going "administration." Tyler got us sorted out pretty quick and we're seeing the results as our renewals are significantly smoother.

GORD CHRISTIANSEN, PRESIDENT AERO HEATING

TRADITIONAL BENEFITS DON'T CUT IT ANYMORE

Long have insurance companies profited off small businesses with benefits going unused in cookie-cutter plan designs.

Benefits administrators need to reduce mundane repetitive admin tasks in the quest to be more productive in this new economy.

Employees are looking for modern meaningful benefits that they can choose to align to their needs.

A Second Opinion is Only a Click Away!
