“The #ICANHELP program is something that should be seen by every single middle and high school student. This program does a fantastic job of showcasing the positive impact students can have when using social media for the purpose of kindness. Students are given tools and suggestions on how to handle uncomfortable social media situations. If you are looking for a presentation that deals with issues that are important to adults, relevant to kids, and entertaining for all, then #ICANHELP is something you need to bring to your school.”

-Rashaan Davis, CHSAA Student Leadership Curriculum Director

"#ICANHELP has presented at our high school state conference, middle school regional tour, to our advisors, and at our principals' conference. The impact they made in Oregon was instant and continues to grow. Their presentation is meaningful, relevant, and practical. I got more calls asking how to bring them back than ever before! We can all help!"
