

Satya S Sardonicus, DC, CACCP

Curriculum Vitae

DR. SATYA SARDONICUS, DC, CACCP is a strategic healing consultant and coach, professional speaker, and the founder of Resilience Artist where she specializes in “unsolvable” complex cases involving sensory processing distortion, chronic stress, and unresolved trauma. Dr. Sardonicus has served as an adjunct professor and clinical supervisor for Palmer College of Chiropractic and University of Western States, and as a guest lecturer for courses in Pediatrics and Clinical Neurology at University of Western States.

Dr. Sardonicus brings a unique perspective of the healing process; her deeply personal experience with trauma and chronic illness inspired her to innovate treatment strategies and programs that accelerate healing by activating the body’s internal self-healing mechanisms. Her multidisciplinary framework for facilitating therapeutic change has been referred to as a “unified field theory for all healing modalities” to provide sustainable, transformative, trauma-informed care that is easier and more effective for both the provider and patient.

A second-generation chiropractor in a family full of holistic providers, Dr. Sardonicus is actively informed by a passion for neuroscience, biotensegrity + fascia, dance therapy, holistic nutrition, and a vitalistic philosophy. She is the creator of Fascial Flow Method™, a groundbreaking body-based approach to unwind old trauma and tension patterns and become more resilient to physical, mental, and emotional stressors.

Above all, Dr. Sardonicus is an innovative thinker, healer, and champion of human potential.

EDUCATION

Academy of Family Practice Council on Pediatrics | 2014

Certification by the Academy Council of Chiropractic Pediatrics (CACCP)

Reiki Levels 1 & 2 | 2002

Carol Wallace, Reiki Master

Life Chiropractic College West | 2010

Doctorate of Chiropractic

Raw Foods Chef & Instructor | 2003

Living Light Culinary Arts Institute

University of Massachusetts: Amherst | 2007

Bachelors of Science: Psychoneuroimmunology

PRIVATE CLINICAL PRACTICE

Center for Hope and Healing | 2010-11

Chagrin Falls OH (functional medicine clinic)

Inspira Center for Foundational Health (founder) | 2012-14

Dover NH (multidisciplinary women’s + children’s health ctr)

Insight Learning & Wellness Center | 2011-11

Cleveland OH (specializing in neurosensory integration)

Little Adjustments | 2014-2018
