

Dear,

Where did this journey start, why did it start and what is this journey all about?

A while ago, a friend asked me that question and to be frankly honest, I never thought about it, however, for you, it might make the difference of being interested or even become a partner of this amazing journey.

- In 1977 I travelled to Maloja Switzerland as a 12 year young kid learning how to Ski and got super excited about the "Log Home" style houses. I started dreaming about building my own Log Home "One Day"
- In 1995 I went back to Switzerland and travelled from Lausanne to Aigle. Funny enough I saw so many Log Homes that I made a decision. I was going to build a Log Home.
- In 2002 I moved to a Log Home in Belgium and had the time of my life! That same year I made a road trip in the USA from East to West through the southern part of the US and during that trip I got to see so many different types of Log homes that the inspiration only grew.
- In 2016 I started my in depth research and as a result of the many travels related to the body language training sessions that I share all over the world, I also developed a passion for wellness during my spare time.
- Today, 5 years later I'm at the point of building it for real, starting in Dubai UAE.

Business:

- My business partner since 1995, NER Management Consultancies located in Dubai is well informed and known by the business world, culture and Government of Dubai. They supports their clients with the startup of companies and residence in Dubai.
- We at BNR are negotiating with various government departments, agencies, investors and already received an offer for a plot of 100K sq meter (24.70 acres) so it's is only a matter of time.

Hope this finds you well and thank you for your time.
I look forward to set up a call.

Sincerely yours,

René Deceuninck
