About The Sponsorship:

Donations benefit first/emergency responders & law enforcement officers by providing online training at no cost to the department, agency or the responders & officers.

Once a sponsorship is finalized, applications will be distributed to departments (police, fire, EMT, 911, etc.) announcing the available sponsorship. Departments may then submit application for the sponsorship. Academy Hour will select departments based on their applications and will provide online training for their responder employees based on the available level of sponsorship funds. The distribution of applications, the selection process, and the enrollment into training classes will be completed within 60 days of sponsorship, in order to best utilize the funds and the time available for recipients to take advantage of the available training.
