Thank you for participating in this workshop!

Hi. I'm Andrea. It's hard for me to share everything that I would like to about this process in 60-90 minute workshop. But that is why I created the The Healer Within Academy and put it all into a systematic program.

In THWA I will guide you through a step by step process to expand and deepen your spiritual understanding, healing and transformation. The Healer Within Academy is an immersive 8-month transformative program for individuals who desire to accelerate their spiritual growth, self-awareness, and healing capabilities.

It takes place online, giving you the freedom to be anywhere in the world. The curriculum uses 8 themes related to the chakras as monthly focal points for growth, guidance, and healing.

The Academy is designed to accelerate your physical, mental, emotional, and spiritual growth in progressive steps of transformation, self-awareness, and embodiment of your *Whole Self*. You will learn how to reconnect with your inner child to release old beliefs, memories, imprints and programs that have concealed the true you.

This is a step-by-step guidance system providing a path for you to release negative patterns in your inner and outer world. As a result, you will create more space to anchor in aspects of your Highest Self and live a divinely inspired life to your fullest potential.

Enrollment is NOW open for a limited time (and space is limited). **Save \$200 with promo code THWA200** (early registration pricing ends soon)
