

The diagnostic test begins on the following page. The diagnostic is in 2 parts, each with 15 questions. Please answer each section to the best of your ability, keeping track of your answers, and then use our answer key and Google Form to see how you did.

This test is meant to help give an **accurate picture** of your knowledge; your results are for your benefit only, and will help you to choose an appropriate class for your level. As such, if you do not have **any** idea as to the correct answer to any particular question, please select the last multiple choice option, “**I don’t know,**” as your answer to that question rather than taking a random guess. If you can make an educated guess as to the right answer, then do so.

2. Read the following passage from *Wilson’s Letter to Congress* by President Wilson, April 2, 1917:

We have no quarrel with the German people. We have no feeling toward them but one of sympathy and friendship. It was not upon their impulse that their government acted in entering this war. It was not with their previous knowledge or approval. It was a war determined upon as wars used to be determined upon in the old, unhappy days when peoples were nowhere consulted by their rulers and wars were provoked and waged in the interest of dynasties or of little groups of ambitious men who were accustomed to use their fellowmen as pawns and tools.

What is Wilson’s **message**?

- a. Germany as a whole is, without a shadow of a doubt, the most abominable country in the world.
- b. America harbors sympathy for small groups of ambitious men in Germany.
- c. America has no reason to hate the German people, who are unfortunately misguided by a small group of aggressors.
- d. The German people were asked for their approval upon entering the war, but the Americans still sympathize with their decision.

5. Read the beginning to the following passage:

Archaeologists have just created an exciting new method for quickly identifying dinosaur species based on fossils of teeth. This new system relies on large databases of known images of fossilized teeth, such that newly found fossils can be compared to existing records using artificial intelligence. The system has already been used successfully to identify the tooth of an ceratosaurus, a species which had sharp incisors for biting into prey.

The author is considering adding the following sentence to the end of this paragraph:

Archaeologists do not know certain other things about the ceratosaurus, however, such as what color it was or what it ate; those facts may remain mysteries for a long time.

Should the author add this sentence? Why or why not?

- a. No, because it reuses the words “archaeologists” and “such,” and you should not use the same word twice in one paragraph.
- b. No, because it is not related to the main topic of the paragraph.
- c. No, because it is a complex sentence and would make the paragraph too long.
- d. Yes, because paragraphs should be at least four sentences long.
- e. Yes, because it adds details about the ceratosaurus and our knowledge of it.
- f. I don’t know

6.
