

# Master sign language in an immersive signing environment.

## THE SIGNING ROOM

### An Intermediate Level Sign Program for Parents and Professionals

This community is all about bringing your conversational and academic sign communication together.

***Research shows that the best way to build language is to participate in ongoing give-and-take dialog. The Signing Room will do that through Deaf Language Models and other intermediate level peers wanting to increase their sign language abilities through natural conversation and dialog.***

By bringing you together with a community of others advancing their sign language skills, as well as Deaf adults, in a small group and 1:1 setting, we are able to give you conversational opportunities in a very natural format. And because we use the internet and on multiple days and times, you're able to fit the Signing Room into your schedule, from any computer!

As a member of the Signing Room, you will meet together through a virtual format for an hour to practice your signing and get feedback from Deaf adults on how to improve your sign abilities. Topics of conversation and conversation starters are provided the week before, allowing you to practice your skills prior to meeting with the group.

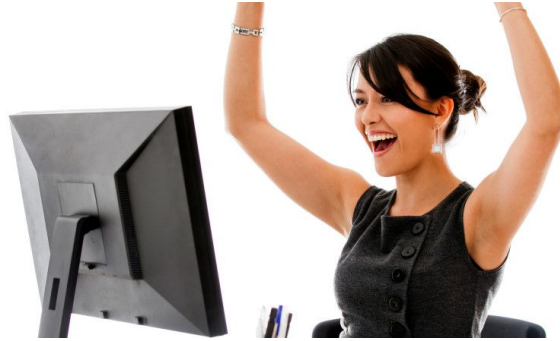

The Signing Room allows you to advance your skills using whatever sign system you use, including American Sign Language, Conceptually Accurate Signed English, or Signed Exact English. With an emphasis on increasing use of classifiers and facial expression to improve communication, your signing will become more clear, more visual, and more expressive, enhancing comprehension of your message.
