

WHAT DO YOU VALUE?

Use the values list provided to identify your top five values, or feel free to add your own. Then take it a step further and choose just two from your list of five. Once you've gotten to those two values ask yourself these questions:

- Are these words a reflection of who I am at my core?
- When I'm at my best, would these words describe me?
- Will these words help me make hard decisions?
- Would someone else be able to list these values based on my behavior?
