

Everlasting- Nathan Smith

Once while we were far away
Held beneath the sway
Of our transgressions
The Lord spread His arms for us
And suffered on the cross
Our inflictions

**Everlasting to Everlasting
You have loved us Oh Lord
So we are asking Lord we are asking
That our hearts would love like Yours**

Oh, that we would know this love
And the greatness of His affections
The power He reveals in us
Like the power of his resurrection is

**Everlasting to Everlasting
You have loved us Oh Lord
So we are asking Lord we are asking
That our hearts would love like Yours**

*And like the love the Son has with the Father
He prayed that we would also do the same
So let love be the debt we owe each other
And in one spirit and one heart proclaim*

**Everlasting to Everlasting
You have loved us Oh Lord
So we are asking Lord we are asking
That our hearts would love like Yours**
