ABOUT DAN “THE DISRUPTER” CUPRILL, CFP®:

Like you, I'm a financial advisor. Like you, I wanted a practice that allowed me to achieve the entrepreneurial dream of working **on** my business, not **in** my businesses.

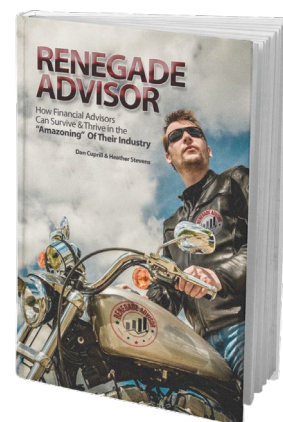

I wanted freedom.

I learned when I changed my focus from chasing sales goals to setting and achieving profit goals, the dream was no longer elusive. In addition to running a \$200 million plus AUM practice, I now spend most of my time showing other financial advisors how to have a systems based, profit oriented practice. Systems create profit. Profit gives you the freedom all want as business owners. Not enough of us know it.

This is why I started Advisor Architect

Since then, I've helped over a hundred advisors to increase their profitability by 25% or more, without spending thousands on advertising or even working extra hours..
