Bir Grewall is a Top Recommended Financial Strategist, Advisor & an Author with a Proven Track record.

You might have seen him quoted on national media such as:      etc.

After losing everything including my custom hilltop house in Aliso Viejo, California in 1995, I decided to learn how money works, Laws and IRS rules governing money. It took me years of discovery and learning, what I learned produced amazing results.

Proof came during the Financial & Housing meltdown of 2007, 08 & 09. **People who used those strategies Did Not lose.**

Now, I am on a mission to help others, protect themselves before the next downturn.

This program is for those who want to TAKE CONTROL of their finances. Are open to strategies & products (they may not have heard before). **Are PROVEN**, used by millionaires & billionaires to take their money to whole New Heights, in a liquid, safe & “tax-free” environment.

This program is NOT for those who are not ready for action to take control of their money **NOW**, or procrastinators who are waiting for another financial downturn, to take action - after the losses (as is being forecasted again by Pundits who predicted 2007-09 crash).
