Testimonial

"Before I did Spirit Messenger Training I had a desire to channel and "be" more spiritual, I felt there was a block and that perhaps I couldn't do it.

After I did Spirit Messenger Training, I realised that it was a re-remembering process, I had channelled and been closely connected to spirit when I was a child. Through the Spirit Messenger Training there were moments of great resistance and moments to true enlightenment. I'm so pleased I flowed through the process, not skipping a task because it didn't feel relevant or how I wanted to connect...Infact those moments usually turned out to be the biggest gifts I was given.

The biggest thing I got out of doing Spirit Messenger Training was that I can channel and connect to the Divine Energy whenever I choose too, all I have to do is Slow Down and Listen. The Divine and my Spirit Team are always there, it is me that switches off not them.

To anyone who is on the fence about doing the Spirit Messenger Training course, it's a big course, there is a lot of material, but you're able to go at your own time, taking it step by step. My advice would be to have fun with it, play with the exercises and allow joy to flow through the process. The universe loves aligned action, so if you chose into this training set a good pace and complete it with a smile!

I am channelling to this day via crystals and objects via touch...Who knew that would be my ability!"
