"Deidre Sirianni is an incredible transformational speaker who drops you into your highest self. When she comes and does a talk and shares with an audience it's not only from a place of so much experience and wisdom but she brings heart and care to every word and you really feel it. The feedback we got from the audience when she came and spoke at Envision was incredible, people experiencing massive transformations, upheavals and awakenings. May she be in a town near you where she can light you with her magic!"

Mia Cara Cosco

"Deidre enchanted me with a beauty that is felt and I knew that I had to have her speak at my debut launch of Consciousness Hacking Vancouver. In a biohacking studio of technologists, researchers, seekers, and spiritualists, Deidre transformed the room from a group of unique individuals into a collective uplifting consciousness starting with their own connection. I trust Deidre to take the lessons that she has learned from her life to transform any room and create magic where there is stagnancy."

Conscious Hacking Organizer

"I invited Deidre Sirianni to speak at Influence 2020, an event for impact-driven entrepreneurs. Deidre is a master at moving an audience through the process of awakening to their true self and eliminating what has been holding them back. Audience members are still raving about her a month later!

As a speaker and speaker trainer, I am thrilled that Deidre is a professional with heart and can make an audience think deeply and also laugh and connect with each other. She is completely engaging and has been a joy to work with. I highly recommend Deidre to speak at one of your events!"
