

Unleashing Abundance

Laura Waller and Jonathan Westrich

Overarching vision

We are dedicated to creating a world where each person recognizes his or her value and is valued. In our vision, we see people growing their businesses and organizations at a rapid rate and without any anxiety over having “enough”. We are organized in cooperative, collaborate effort to unleash imprisoned abundance so that together we can make good work. This is what we see:

. . . millions of people are partnering with each other to improve the human condition the world over

. . . businesses and organizations always have the resources to build wherever and whenever they see an opportunity to serve

. . . the leaders of those organizations are thriving personally and collectively because they know who they are, what they are called to do, and where their path is leading

. . . our world is full of grace and abundance

. . . the collection of resources and tools we and our partners make available have liberated people from the prison of scarcity and lack – they now embrace abundance and growth

. . . people are living their lives on purpose, with a purpose because they are no longer afraid to give.

Purpose – our WHY

We recognize that everyone has something to give and can make a difference for others. Many have the desire to serve and pursue significance but have never launched or established sustainability due to lack of clarity, organization, and funding. We also see a pervasive poverty mentality and scarcity mindset throughout society. This leads to waste, and abundant resources become trapped.

We seek out and engage with people who have inspired ideas for serving others through small businesses, nonprofit organizations, ministries, or social enterprises. We facilitate connections to capital sources so that the abundance is unleashed and channeled efficiently and effectively to make a positive impact around the corner and around the globe.

Unifying Strategies

- **Dream it – Design it – Do it (Building Clarity)**
- **Nail it & Scale it (How Big Can It Get?)**
- **Cooperation & Collaboration**
- **Expansive & Effective Capital Sourcing**

Scorecard for Significance

Dream it – Design it – Do it (Building Clarity)

Without clarity, we cannot attract capital and the other people we need to manifest the dream and serve others. We create and deliver online courses and one-on-one coaching to build an O.P.U.S. document. This sets up the decision structure and communications for all other operational, financial, and promotional activities.

Nail it and Scale it

Leadership and growth programs and tools to set up the business or organization for solid operations and explosive growth.

Reliance on the licensed resources and tools from the John Maxwell Team, Igniting Souls, SocialVentures, and our proprietary programs and special services.

Cooperation and Collaboration

- Mastermind groups
- Group coaching
- Community Summit events
- Financial cooperatives (including credit union partners and shared project financing).

Expansive & Effective Capital Sourcing

Each business, organization, or social enterprise in our Tribe has its own Capital Sourcing Portfolio. We teach our Tribe how to pursue “prosperity with purpose”. We never chase money – we chase significance.

Our expertise, imagination, and experience in the financial markets have shown us multiple ways to raise capital and keep it flowing for sustainability. This includes private placement, patient capital accessed through our own philanthropic fund, complex gifting, tax-advantaged funding, and unique partnerships among and between businesses and nonprofit organizations.
