

The Mastery of Miracles: Visioning Into Your Future

Before you begin, please know you are God's creation, perfect, whole and complete. Nothing is missing, you do not need to get better at anything, and everything is already inside you.

As you move through this worksheet create from the best case scenario, as if everything you are up to has a great outcome.

Picture yourself walking down the street 10 years from now and we suddenly run into each other.

What year is it?

How old are you?

What do you look like?

Are you strong and muscular? Slim and fit? Healthy? Stylish?

What would you say to catch me up?

Where do you live?

Are you single, married? In love? Do you have children?

What is your career?

How much money do you make?

How much money do you have in your bank? What investments do you have?

How are you spending your time? Traveling? Family? Hobbies?

Where are you making a difference?

Children's causes? Ending poverty? Homelessness?

What awards and accomplishments are most proud of?

As we say goodbye, where are you going? What are you going to do? Who will be there?

And what words of encouragement do you give to me to help me on my journey?
