

Developing Your Vision

A vision acts as...

The North star to help us keep our eye on the destination.

A Telescope to see far away.

A compass to help us make decisions that move us toward our destination.

An anchor to keep us from going off course during turbulent times.

What do you *not* want?

List 3 things you need to avoid?

What *do* you want?

List 3 things you need to say yes to even if they are hard?

What motivates you?

Developing Your Vision

What kind of life do you want for your child? What is their destination?

Look far ahead to the future. What do you want your child's like to be like in 5 years?

What decisions do you need to make right now so that you are headed in the right direction?

What do you need to keep in mind to be sure you are not blown off course when things get rough?

What kind of experiences will your child need in order to move towards this vision?

Who can you surround yourself with to help you develop a vision and work towards it?

If you don't have anyone in your life right now who will support your vision then where can you find those people?

No ideas?
