

Jace Downey

CHIEF EMPOWERMENT OFFICER
SPEAKER, TROUBLEMAKER
RECOVER LIFE COACHING

Jace began speaking publicly in 2015. She has been featured onscreen, online and in print across the globe as a pioneer in battling stigma surrounding addiction and trauma, shifting the way people recover, and empowering others to use their past to build their future. Her boldly authentic YouTube channel has grown to over 1.4 million views with 7,000+ subscribers.

She is known for being an insightful, engaging speaker who captivates and surprises audiences with humor, authenticity and compassion. She is recognized for making difficult subjects easily approachable through safe and fun environments.

Recover Life Coaching was built on two foundational beliefs: 1. Setting sobriety as the end goal is a formula for failure. 2. People in recovery are capable of far more than ever deemed possible because of their history with addiction, not despite it. Recover Life Coaching is growing to be the premier hub for extraordinary people in recovery and those who love them.
