Bespoke Add-on Packages

All agencies can request any of the following bespoke add-ons.

1. Workshop Plan

Flexible workshop plan:

In workshop scenarios we offer the following

- Hosted over via Zoom (or online conferencing platform equivalent)
- Workshop length is variable but is charged at £60/hr and topics can be negotiated

Fixed Guided L3 Workshops include:

Flat fee for workshop: £250, requires a minimum of 5 pp (5hrs inclusive of 3 short breaks)

- By the end of the workshop, tutors will have completed their Tutor Workbook. This covers a safeguarding risk assessment, applying the training to their specialist area and demographic, developing bespoke lesson plans and sharing best practice with one another.
- Tutors will be encouraged to work in small groups to brainstorm activities and review case study examples, with opportunities to feedback from these, as well as raise any concerns or questions.

2. Resource development

If you need any additional resources created, our specialist collaborators can develop these on your behalf, allowing your staff to get back to growing your business. This could include updating or remodelling existing handbooks or creating brand new content specifically for you, based on your training needs. We have extensive experience in developing manuals, courses and assessments. Quote available on request depending on the nature of the resource being developed.

3. 1-2-1 consultancy support

This is available for users at any point throughout their training. These sessions are 30mins each and can be purchased as frequently as a user requires. These are arranged at a time that suits the tutor, on a topic of their choice. We offer a money back guarantee on these, whereby if we can't answer their questions, we'll reimburse the tutor for the session. Prices begin at £30 per 30minute session and users are put in touch with one of our specialists.

4. Community area

We offer an area within our training portal that is exclusive to your users only. Any documentation your agency already uses as part of an induction process or resources for ongoing tutor support can be added to this portal, providing your tutors with all of their agency material and training resources neatly arranged in one place. This can include downloads, forms, imagery, resources and video links etc. This is an extra annual fee of £200.
