

Speed Reading Simplified

LIVE Online Class # _____ - Date: _____ | www.SRSTips.com/live

Speed Reading Exercise: Novel - light reading, something you have read before or have at home. A pencil, a calculator & this worksheet.

Average line: Words in three whole pages divided by three. >> Example: 33 words divided by 3 = 11 words per line. (Usually 8-12 words).

Your average line = words in 3 lines = _____ divided by 3 = _____ words per line.

Words per minute = Lines from A to B times Average line. >> Example: 10 lines (A to B) times 11 words per line = You are reading 110 words per minute.

Lines from A-B = _____ times your average line _____ = _____ wpm **H1**

Lines from B-A = _____ times your average line _____ = _____ wpm **H2**

Notes:
