### Step 2 – Idea Expansion

Ask yourself the following question using your idea from page 1 of these worksheets:

**If I had unlimited resources (money, time, skills, personal connections), where do I see this idea going?**

---

---

Ask your 6 MVP's the following question using your idea from page 1 of these worksheets:

**If YOU (your MVP) had unlimited resources (money, time, skills, personal connections), where could you see this MY idea going?**

This question forces them to give you their perspective of your idea and let them run wild with how big they could take your idea. By combining their answer with your own thoughts and answer to this question you'll have exponentially expanded the idea you originally had. Your idea will expand to levels you could never have dreamed of through the power of the mastermind. When two or more minds focus on the solution to this problem, to brainstorm all the possible answers.

The answers to this question become your Massive Idea.
