

ABRAHAM'S TABLE FEEDS THE HOMELESS

A 13 year old boy with a rare blood disorder qualified for a Make-A-Wish dream. He decided to share his once-in-a-lifetime dream gift by providing food for the homeless in his Mississippi community.

The Make-A-Wish Foundation created Abraham's Table filled with food for the homeless each month for a year. This marvelous gesture of compassion and LOVE is named after the teenager Adeola "Abraham" Olagbegi. This is the first time the Make-A-Wish Foundation has provided a gift of this kind.

Adeola "Abraham" Olagbegi, your generous soul and kindness has transformed lives forever.

BEYOND SURVIVING

Cancer is an extremely challenging disease expected to be newly diagnosed

in 1.9 million people living in the United States during 2022.

David Maginley has written a fabulous and insightful book called [*Beyond Surviving, Cancer and Your Spiritual Journey*](#). He is a four time cancer survivor who had a near-death experience that is eloquently described.

Beyond Surviving teaches us how to turn cancer's challenges into a journey of enlightenment and LOVE rather than succumbing to the depths of despair. Spiritual insights are beautifully presented in a clear, easily understood, and accessible manner.

David's calm compassionate description of multiple situations encountered as an interfaith chaplain at a major cancer treatment center in Nova Scotia inspires spiritual growth and a renewal of trust.

Beyond Surviving is highly recommended for all medical professionals and those encountering cancer. David teaches us how to turn grief into hope and challenges into rewards. One does not need to have cancer to reap the benefits of this beautiful book of LOVE.

I love the beginning of spring. New growth blossoms, daffodils bloom, and a brand new season explodes with JOY.

Spending time in the woods, listening to birds sing their cheerful songs of birth encourages us to look forward while we embrace nature's bountiful gifts.

Streams bustle with vigor and awaken our sense of introspection as we explore the meaning of life.

Trees rouse from winter slumber, sharing their ancestral wisdom as we explore internal awareness and enlightenment.

I encourage you to take time this spring to experience the magic.

I hope you have a wonderful day filled with spring's beautiful energy and LOVE.

Sending you lots of LOVE always and forever,

Becky
